

# Your Joint Replacement: Total Knee

# Your Joint Replacement: Total Knee

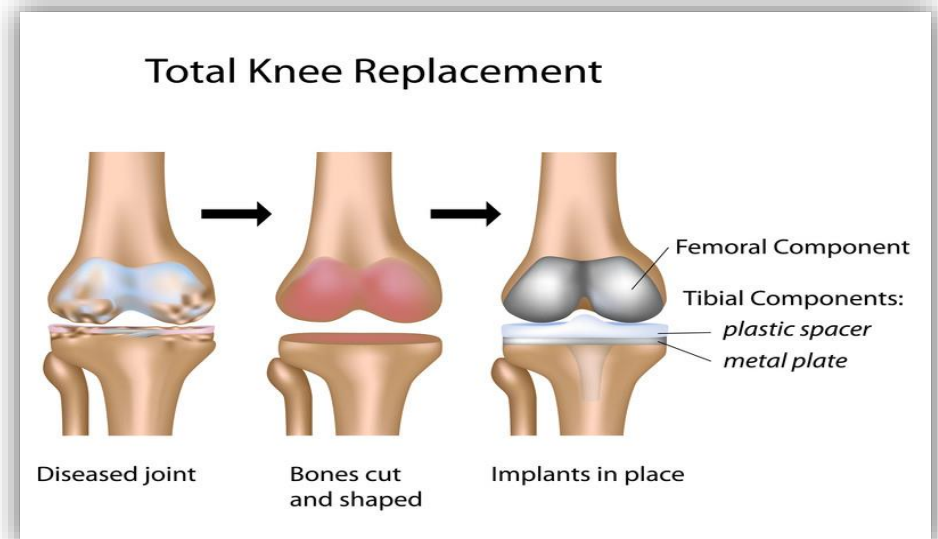

- ▶ Arthritis of the knee

# Your Joint Replacement: Total Knee

## ► Surgical Process

- Surgeon will take off part of the bottom part of your femur, as well as, a sliver off of the top of your shin
- Titanium prosthesis will replace both of those pieces
- Plastic spacer placed in between to act as the meniscus
- Results in nice, clean joint movement after you are done recovering

# Your Joint Replacement: Total Knee

- ▶ Knee after total knee replacement
